MESSAGE FROM
OUR CHAIRMAN
JUAN F. GONZALEZ

We have been steadily growing a great company – a company that puts quality over quantity every time and is not looking to dominate the space. We are looking to meet every timeline and fulfill our client's expectation tenfold.

In not worrying about what our competitors do, it allows us to focus solely on you, the client. Our focus is laser sharp and specific to one cause – keeping the client safe and delivering a product that is above and beyond of what they were expecting. Our core is providing Tier 1 security services for the safety and security of your assets, infrastructure and personnel worldwide.

SECURITY SINCE 2007

OUR COMPANY

OVER 120 YEARS OF EXPERIENCE

We are a strategic level security management group comprised of highly experienced professionals that come from diverse backgrounds ranging from industrial security, financial services, law enforcement, military special operations, and intelligence arenas.

THE STANDARD

QUALITY OVER QUANTITY

We take you in, listen to your issues and worries. Then we turn around and start solving problems. It's that simple for us when we first meet.

We start a meticulous planning process and leave no stone unturned. We've been doing it for so long it comes naturally. We pay attention to the details and have all the lessons learned from years of working in hostile and non-permissive environments. We do not search out the lowest common denominator for the highest profit margin. Instead, we focus on thorough screening and systematic training of qualified personnel who are motivated and committed to doing their best.

And that's The Standard.

EXPERIENCE

HIGH END QUALITY & SERVICES

We cut our teeth in Mexico, Brazil, Colombia and the Middle East. We organize vehicles, personnel, medical response, and crisis management all while delivering our clients safe and sound to their destinations. We take ownership of the whole process, meeting hard timelines anywhere on the globe. We are not afraid to advise our clients when the logistics are not realistic.

We are problem solvers.
